BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. WEDNESDAY, JULY 9, 1845. VOLUME XII.....NUMBER 7.

Highly important to all invalids & friends of Invalids.

THE AFFLICTED IN DANGER! SALUTARY CAUTION READ! READ!!

THE well established and well-earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS as a Sovereign antidote and cure in cases of Fever and Ague, Indigestion, Dyspepsia, Dysentery, Colic, [illegible] Complaints &c &c has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impugned, has [illegible] against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills.

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive [illegible] "SUGAR COATED PILLS" may be pleasant to the palate but it requires something more than an agreeable exterior to combat with disease. We shall not [illegible] analyse the composition of the [illegible] [illegible] extended improved Indian Vegetable Pills which [illegible] thrown into the market and advertised [illegible] the country paper — we have no desire to [illegible]. It is however, our duty to assure the public emphatically that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that whoever purchases them under this supposition is wofully [illegible]. This caution is positively necessary [illegible] the very [illegible] qualities set forth the [illegible] of ingredients &c. are all those which [illegible] the distinctive and original character of the true [illegible]

Remember that none but "WRIGHT'S Indian Vege[illegible] which are protected by a patent. They [illegible] the sale and circulation [illegible] intrinsic merits. [illegible] upon any attempt [illegible] the brow of the inventor [illegible] has been placed by grateful [illegible] the continuance of the enjoyment of [illegible] happy and benevolent

Wright's Indian Vegetable Pills

[illegible] in cases of Intermittent [illegible] Nervous, [illegible] and Putrid Fever, Measles, Small Pox and Erysipelas; Inflammation of the Brain, [illegible] stomach, lungs, liver [illegible] in the stomach, [illegible] in consumption, dropsy of the head of the chest, [illegible] scrofulous, scurvy [illegible] cancer, gravel, loss of appetite, sick headache, [illegible] with acute and chronic, spitting of blood, [illegible] apoplexy [illegible] epilepsy, [illegible] palpitation of the heart, ulcers and sores, [illegible] weak nerves, and low [illegible] depression, and those delicate female complaints [illegible] ever discovered has grappled [illegible] forms of disease with such general success. They [illegible] thus powerfully THE EMPLOYMENT [OF] NATURAL MEANS TO COUNTERACT THE [ILL]S OF NATURE. The bowels of the earth have [illegible] ransacked for poisonous minerals to infect the [illegible] under the pretence of eradicating disease. [illegible] have been searched for [illegible] From these have been [illegible] attacking the various forms of disease [illegible] by the outlets provided by the author [illegible] the Skin, the Kidneys and the [illegible] Hence Wright's Indian Vegetable Pills [illegible] suggested by nature are Sudorific, Diuretic, Expectorant and Purgative.

The origin of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature in our researches after true [illegible] science and art the more complete will [illegible] in both. Look at the uniform phy[sical] condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North or to the rain, heat, and pestilential miasma of the southern climate. Houseless, unprotected [illegible] every atmospheric change, every extreme [illegible] dwelling at times in morasses [illegible] the margins of unhealthy pools and swamps [illegible] yet enjoy an almost total immunity from disease, while the white man who enjoys all the [illegible] civilization, with its attendant arts, [illegible] inferior to the savage in physical vigor [illegible] in intellectual acquisitions. [illegible] happen? Simply because bereft [illegible] of science he relies upon that divine [illegible] which impels him to select from the produc[tions] [illegible] the remedies which Nature [illegible] has bounteously provided for [illegible] of suffering and the mitigation and cure [illegible] broadcast on every hill [illegible] improvingly arrange the [illegible] Providence and point with a sure [illegible] who lie groaning [illegible] the false lights of [illegible] of nature and they will [illegible] which has so bountifully provided a cure [illegible] wound—*a remedy for all who seek one.*

[illegible] assumes one form from another, [illegible] hence the absurdity of attacking [illegible] compounded medicine. But Wright's Indian Vegetable Pills [illegible] remedy for every form [illegible] successfully any combination of [illegible] powers [illegible] these pills thorough[ly] [illegible] and operations. They [illegible] taken according to directions [illegible] They may be freely resorted [illegible] the most desperate cases of the most desperate [illegible] have [illegible] remarkable and marvellous [illegible] wide range of disease [illegible] to any particular [illegible] emphatically establish [illegible] the only danger that [illegible] should [illegible] palmed off by the [illegible] genuine Pills. The [illegible] public against purch[asing] [illegible]

GENUINE "WRIGHT'S INDIAN VEGETABLE PILLS."

[illegible] we before remarked operate [illegible] cleansing the entire [illegible] impurities and making the invalid [illegible] expressive phrase "a new man" [illegible] INCIPIENT CONSUMPTION [illegible] attacks the Lungs [illegible] dry hacking cough so painful to [illegible] showing itself upon [illegible] whether the Kidney [illegible] be affected—*Wright's Indian Vegetable* [illegible] are equally efficacious in warding [illegible] expectorant cathartic, sudorific, [illegible] them to take hold [illegible] of the medicine is another [illegible] which has contributed [illegible] anything else to its extension and popu[larity] [illegible] commends itself strong[ly] [illegible] public and its use [illegible] ALMOST UNIVERSAL.

LOOKING GLASSES.

GILT and Mahogany framed Looking Glasses from 25 to $15. S. A. HYDE.

NEW AND MOST EFFECTIVE REMEDY.

DR. WOOD'S

SARSAPARILLA AND WILD CHERRY

BITTERS,

For the Cure of the following Diseases.

Jaundice, Liver Complaint, all Billious Complaints Sick Headache, Heart Burn Indigestion, Habitual Costiveness, Piles, Palpitations of the Heart Loss of Appetite, Dyspepsia, Nervous Irritations Debilitated stomach, Languor Depression of Spirits Chronic Rheumatism, Cutaneous Diseases, Canker Syphilitic Diseases, Scrofula Impurities of the Blood Pimples, and Pustules on the Face Hereditary Humors, Cold Sores and all diseases arising from an injudicious use of mercury.

The attention of the invalid public and all those afflicted by any of the above diseases is respectfully called to the merits of a new and invaluable preparation from an original recipe of a distinguished physician, combining in itself the most active remedial properties of two of the very first articles in the Materia Medica.

The Sarsaparilla and Wild Cherry Bitters, were introduced to the public about twelve months ago, and during that period their success has been so great as to induce the proprietor to offer them with still more confidence in the full belief that by entering into more extensive use they will prove a blessing to all those suffering from the diseases above enumerated.

DYSPEPSIA OR INDIGESTION.

This anomalous, distressing and almost indescribable complaint—the torture of civilized society has its foundation in a deranged condition of the stomach and bowels. Those afflicted by it are cut off from all the enjoyments of life, the pleasures of the table, and sweet and regular sleep, oftentimes confirmed Dyspepsia fatally neglected, is but the forerunner of more dangerous disease [illegible] out of death itself. At its first appearance it should be checked by an attention to diet and regularity and by the use of some safe and Salutary medicine. All that invalids can desire of this kind is presented in Dr WOOD'S Sarsaparilla and Wild Cherry Bitters, a skilfully prepared and delightful Tonic and Aperient, every day becoming more & more popular. The following is one among many certificate of the efficacy of this medicine in the cure of Dyspepsia and Indigestion, Headache, &c.

Col Gibbs is well known in this vicinity and therefully gives his testimony of the efficiency of this Medicine.

Sandwich, Sept 4 1844

Dear Sir This is to certify that my daughter has been troubled with Dyspepsia for a number of years, attended with almost constant headache and other distressing symptoms which accompany this disease. She visited Boston to avail herself of the advice of the justly celebrated physicians of that city, all to no purpose. By the solicitation of a friend I was induced to purchase a bottle of Dr Wood's Sarsaparilla and Wild Cherry Bitters. Before taking one bottle she was relieved entirely of the headache, and after taking two or three bottles the other symptoms entirely disappeared.
N B GIBBS

THE UNIVERSAL COMPLAINT, HEADACHE.

Who is there that does not occasionally suffer from this listress g affection? We meet with it among all classes conditions and sexes, the torture of the race, unfitting its victims for all bodily and all mental exertion, rendering them nervous and irritable and incapacitating them alike for business or enjoyment. The principal, almost the sole cause of this malady is to be found in a diseased condition of the stomach and bowels, corrupting the blood, unbracing the nerves generally deranging the system, and preventing that great blessing of life a regular, certain and easy digestion. Only ensure this, and the difficulty will vanish. In order to effect this desirable object, no medicine ever offered to the public has been used with greater success than Dr Wood's Sarsaparilla and Wild Cherry Bitters combining all the advantages of the tonic and aperient medicines of the day and free from many of their usual disadvantages.

The annexed certificate of Col Bayliss will be read with interest by those afflicted with Headache, and other complaints arising from a deranged stomach.

New Bedford Aug 10, 1844

Dear Sir I find Dr Wood's Sarsaparilla and Wild Cherry Bitters that you recommended them to be and take great pleasure in saying that I think them the best preparation of the kind ever offered to the public. I have been troubled for a long time with Jaundice and derangement of the stomach, attended with Headache and vertigo which was so bad at times that I could not see, and I think that I am entirely cured by the use of these Bitters. I have used them in my family, and would recommend them to every one suffering from Jaundice, Indigestion, and Headache.
JOHN BAYLIES.

DEPRESSION OF SPIRITS

At certain seasons of the year, and particularly in the spring, many persons are subject to a depression of the spirits accompanied by a debilitated stomach, loss of appetite, a relaxed condition, general languor and a variety of symptoms which it is impossible to describe. The only way to remove this disease is to strengthen the stomach by the use of proper tonic remedies, to brace up the muscles, secure an appetite for food and allay nervous irritation, and by putting the body in a high state of health, to produce ease and strength of mind. To do this, nothing is more effective than the Sarsaparilla and Wild Cherry Bitters. They have been [illegible] recommended as the best SPRING MEDICINE ever offered to the public. One trial of their virtues will be sufficient to convince all of their invaluable properties, and those who have used them will never resort to any other remedy for this painful disease destructive as it is to all happiness and usefulness in life.

CAUTION TO THE PUBLIC.

Be particular and ask for Dr Wood's Sarsaparilla and Wild Cherry Bitters, and receive no other. This is the first preparation of Sarsaparilla and Wild Cherry combined ever offered to the public, and the great success attending its use will induce the unprincipled to counterfeit it. As a preventative, see that the bottles have the words DR WOOD'S SARSAPARILLA AND WILD CHERRY BITTERS pressed on the glass as a further protection each label on the bottle will be signed by the proprietor, E Thornton, Jr. Take these precautions and you will get the genuine article.

From the New Bedford Register

Dr Wood's Sarsaparilla and Wild Cherry Bitters.—The respectability of gentlemen in this town and vicinity who testify to the benefits, within their personal knowledge derived from the use of this Compound of Sarsaparilla and Wild Cherry is such as to put to rest all doubts as to the value of these extracts to those suffering from Dyspepsia Jaundice Indigestion Headache or Scrofulous diseases. When a medicine has been known to effect cures in certain cases no recommendation is needed, other than a simple statement of facts. To those then who are liable to any complaints for which the Sarsaparilla and Wild Cherry Bitters is advertised as a remedy, we would say do as others have done and find relief in the way pointed out by the proprietor of this highly popular compound.

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of Newport, County of Penobscot and State of Maine is now offered for sale in such parts as purchasers may desire. This water power combines three essential advantages, an unfailing supply of water the pond covering a large portion of the town and raised with little expense or damage, freedom from all risk as to freshets, and is never frozen. It is situated in the heart of rapidly increasing and thriving agricultural county, and is only twenty three miles distant from the city of Bangor.

There is now situated on this outlet, a Tannery an Iron Foundery and Machine Shop, and a Saw Mill and a Grist Mill.

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery, and also of several acres of land adjoining, or of portions of the same to be used for various manufacturing purposes.

It is believed that the advantages here offered are rarely equalled and never excelled; and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures.

Greenleaf's Map of Maine.

THE subscriber has finally succeeded in bringing out the new Map of Maine. No possible effort or expense has been spared to render it accurate and worthy of public patronage. The number of copies issued will be limited as nearly as possible to the actual sales. Agents will visit different parts of the State for the purpose of giving our citizens an opportunity of purchasing, from whom only can copies be obtained as the Map will not be deposited at the Bookstores or sold by local agents.

Mr WM S PRITCHARD, of Bangor is an authorised agent for the sale of said Map. Persons wanting copies immediately can be supplied by leaving their orders with Gen C K MILLER P M, at Bangor, or by addressing the subscriber, P M at Williamsburgh.

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April 1836, directed the Land Agent of said Commonwealth, to give notice to sundry proprietors of lands in the State of Maine, who were required by a condition contained in the original deeds of conveyance from the Commonwealth to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfillment of said condition, or pay the sum of $30 for each family deficient on the first day of June 1836, or the lands would be declared forfeited.

Pursuant to said Resolve notice was soon after given to all the proprietors of lands subject to said condition most of whom have complied therewith and removed the incumbrance. The proprietors however of the following townships or tracts have not responded to the notice, neither have they (so far as is known in this office) settled for or complied with said condition viz. In the County of Cumberland—a gore of land lying between the towns of Raymond and Otisfield, formerly conveyed to Samuel Philip.

County of Franklin—Township Letter D conveyed to Jonathan Gardner and number two and number three in the third range.

County of Oxford—letter A No 1 now the town of Riley and A No 2, now the town of Newry.

County of Somerset—A half township No 2 1st Range north of Bingham's [illegible] purchase granted to the Trustees of Sandwich Academy.

County of Penobscot—Township No 3 on the west side of Penobscot River, granted to the Maine Literary and Theological Institution, now the town of Argyle, South half of township No 3 [illegible] North of the Waldo patent granted to [illegible] and others and the north half of township No 6 9th range granted to the Trustees of Warren Academy.

County of Washington—Township No 8 [illegible] west of Passamaquoddy River, granted to Samuel Hinckley, No 1 4th range, [illegible] Mills called [illegible] and a half township upon the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick.

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the [illegible] day of March last [illegible] to give notice to [illegible] [illegible] deem to be necessary to transfer to the Commonwealth the possession of any of the above named township or tract [illegible] from such proprietor as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April, 1836.

GEO W COFFIN, Land Agent of Mass
Land Office, Boston April, 1845

The publishers of the Portland Advertiser, Bangor Whig and Courier and Bangor Democrat will please insert the above twice a month for 7 months and remit their bills to the Land Office State House Boston.

INSENSIBLE PERSPIRATION.

THE above figure is given to represent the INSENSIBLE PERSPIRATION It is the great EVACUATION for the impurities of the body It will be noticed that a thick cloudy mist issues from all points of the surface which indicates the wonderful process going forward within This perspiration flows uninterruptedly when we are in health, but ceases when we are sick It should be the care of every one to see that it is not checked Life cannot be sustained without it It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The blood by this means only works itself pure The language of Scripture, is "in the BLOOD is life" If it ever becomes impure, it may be traced directly to the stoppage of the INSENSIBLE PERSPIRATION It never requires any internal medicines to cleanse it, as it ALWAYS purifies itself by its own heat and action, and throws off all the offending humor, through the INSENSIBLE PERSPIRATION Thus we see, all that is necessary when the blood is stagnant or infected, is to open the pores and it relieves itself from all impurity instantly Its own heat and vitality are sufficient without one particle of medicine except to open the pores upon the surface This we see the folly of taking so much internal remedies All practitioners, however, direct their efforts to restore the Insensible Perspiration but it seems to be not always the proper one — The Thomsonian for instance steams the Hydropathic, shrouds us in wet blankets the Homeopathist deals out infinitissimals the Allopathist bleeds and doses us with mercury and the blustering Quack gorges us with pills pills pills

But one object only is in view, viz—to Restore the INSENSIBLE PERSPIRATION If this can be done they say we will take care of the rest It will be seen, therefore that all physicians understand alike what is necessary to a recovery however much they may differ as to the mode of obtaining it

To give some idea of the amount and consequently the importance of the INSENSIBLE PERSPIRATION, we will state that the learned Dr Lewenhock and the great Boerhaave ascertained that five eights of all we receive into the stomach passed off by this means In other words, if we eat and drink eight pounds per day we evacuate five pounds of it by the Insensible Perspiration

This is none other than the used up particles of the blood and other juices giving place to the new and fresh ones by carrying with it all the impurities within, up to the surface To check this, therefore is to return to the system five-eighths of all the virulent matter that nature demands should leave the body And even when this is the case, the blood is so active a principle, that it determines those particles to the skin, where they form scabs, pimples ulcers and other spots, but if it is directed inwards, and falls upon the lungs, the consequences are generally fatal

By a sudden transition from heat to cold, the pores are stopped the perspiration ceases, and disease begins at once to develop itself Hence a stoppage of this flow of the juices, originates so many complaints It is through the surface that we imbibe nearly all our ills

It is by stopping the pores, that overwhelms mankind with coughs colds and consumptions Nine tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION

It is easily seen therefore, how NECESSARY is the flow of this subtle humor to the surface, to preserve health It cannot be stopped, it cannot be even checked, without inducing disease The blood and intestines must relieve themselves of all their worn out particles, and poisonous humors and they must go through the pores as nature designed

Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they are closed, and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common sense And yet I know of no physician who makes any external application to effect it The reason I assign is, that no medicine within their knowledge, is capable of doing it Under these circumstances I present to physicians, and to all others, a preparation that has this power in its fullest extent It is *McAlister's All-Healing Ointment* or the *World's Salve* It has POWER to restore perspiration on the feet, on the head, around old sores upon the chest, in short upon any part of the body whether diseased slightly or severely When the perspiration is restored, it has POWER to penetrate to the lungs liver or any other part of the human system, and so to act upon them if they be diseased by separating the inflamed morbid particles therefrom, and expelling them to the surface.

It has POWER to cause all *external* sores, scrofulous *humors*, skin diseases, poisonous *wounds*, to discharge their putrid matter, and then heals them

It is a REMEDY that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions,

It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the stomach

It is a REMEDY that neither sickens, gives inconvenience or is dangerous to the intestines

This REMEDY is probably the only one known, that is capable of producing all these great results Its great value is in restoring *at once*, the circulation of the juices when checked or disarranged by cold or other causes It preserves and defends the surface from all derangement of functions, while it keeps open the channel for the blood to void all its impurities and dispose of all its useless particles — There is a connection, harmony, and feasibility in it all that defies contradiction. It is a simple, but wonderful principle that preserves in healthy operation the entire machinery of our being.— It indissolubly holds together the *surface* and *internal Viscera*, the *internal Viscera* and the *surface*. They are inseperably connected and cannot be disjoined. The surface is THE outlet of five-eights of the bile and used up matter within. It is pierced with MILLIONS of openings to RELIEVE the intestines. Stop up these pores and DEATH knocks at your door. It is rightly termed *All-Healing*, for there is scarcely a disease external or internal, that it will not benefit. It will be found the most useful as well as the cheapest family medicine in the world I have used it for the last fourteen years with success without a parallel. I have used it for all diseases of the chest, consumption, liver, and the most dangerous of internal maladies. I have used it in cases of extreme peril and hazard, involving the utmost danger and responsibility and I declare before heaven and man, that not in one single case has it failed to benefit when the patient was within the reach of mortal means

I never, in my recollection, had more than five or six among the thousands who have used it, say that it was not favorable to their complaint On the contrary I have had hundreds voluntarily, and in the warmest and most pathetic language speak in its praise I have had physicians, learned in the profession; I have had ministers of the gospel, Judges on the Bench, Aldermen and Lawyers, gentlemen of the highest erudition and MULTITUDES of the POOR, use it in every variety of way, and there has been but one voice, one united universal voice, saying "McAlister, your Ointment is GOOD"

CONSUMPTION

Of all diseases, we find this the most important, and concerning which we meet with the most opposition It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system But we say once for all that this Ointment will reach the lungs *quicker* than any medicine that can be given internally Every body consents to the fact, that if a healing medicine could be applied ON the lungs, there would be great hopes of recovery The difficulty is to get the medicine *there* Now the Salve has the wonderful virtue of extracting the putrid diseased humors in or all *external* sores, by causing them to discharge In like manner it operates upon *internal* affections by driving all the impurities through the pores to the surface Thus with Consumption if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system

It is the simplest and most rational process in creation, if one has *the medicine* capable of doing it The All-Healing Ointment possesses this power to its fullest extent I need not say that it is curing persons of consumption continually, although we are told it is foolishness I care not what is said, so long as I can cure several thousand persons yearly If this medicine was in the hands of some patent medicine brawlers they would make an uproar through the country that would be insupportable

SCROFULA, OR KING'S EVIL

This disease is really inveterate, and hard to be subdued It is generally seated in the side of the neck, behind the ears and under the chin yet is rarely any part of the body is exempt It sometimes falls on the lungs, and produces consumption It is a dreadful circumstance, that this disease is transmitted from parents to children

The Salve will extract all the morbid matter by causing the sores to discharge, and then let the *Solar Tincture* be used to drive it to one point, which done a continuance of the Ointment will completely remove the disorder — This is probably the safest and most effectual of any method It should be adopted without a moment's hesitation

ERYSIPELAS

This complaint arises from impurities being driven out to the surface by means of the INSENSIBLE PERSPIRATION and lodging in the cuticle forms sores pimples, &c., it being of a caustic acrid putrifying nature It only requires that it should discharge its virulent particles through the skin and the difficulty will pass off If suffered to remain, and driven in war it is frequently fatal

Let the Salve and *Solar Tincture* be used as in Scrofula, and the patient will soon get well

SALT RHEUM

This is another obstinate disease but can be cured effectually as the Scrofula There is no difficulty in this disease

HEAD ACHE EAR ACHE AND DEAFNESS

The Salve has cured persons of the Head Ache of 12 years standing and who had it *regularly* every week so that vomiting often took place It cured the wife of a man who laughed in my face for proposing such a cure and who now would not be without it for the best farm in the state If any man will take the trouble to call I will give his name

Deafness and Ear Ache are helped with the like success, as also Ague in the face

COLD FEET

Consumption, Liver Complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet It is a sure sign of disease in the system to have cold feet Some persons are totally unable to get them warm and endure much suffering thereby The Salve will restore the INSENSIBLE PERSPIRATION and thus cure every case It is infallible for this

ASTHMA, TIGHTNESS OF BREATH

If this disease be not hereditary and produced by a malformation of the chest, the Salve will cure it

DYSPEPSIA

One would suppose a Salve would not effect this disease much, but the *All-Healing Ointment* will cure two, sooner than internal remedy will cure one

SORE EYES

The inflammation and disease always lie back of the ball of the eye in the socket Hence the inutility of all remedies that are used upon the lids The virtue of any medicine must reach the seat of the inflammation or it will do little good This Salve if rubbed on the temples will penetrate directly into the socket and infuse all its virtues upon the disorder The pores will be opened, a proper perspiration will be created and the disease will soon pass off to the surface How easy and how natural! It is as perfect and valuable as it is simple and philosophical

SORE LIPS, CHAPPED HANDS, ETC

I sell a great deal of Salve to Seamen, who say it is the ONLY thing they can depend on to cure their raw hands when exposed to the weather at sea It acts like a charm in these complaints Two or three applications cure

PIMPLES ON THE FACE, FRECKLES, TAN, MASCULINE SKIN, GROSS SURFACE

Its first action is to expel all humor It will not cease drawing till the face is free from any matter that may be lodged under the skin and frequently breaking out to the surface It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften until the skin becomes as smooth and delicate as a child's It throws a freshness and blushing color upon the now white, transparent skin that is perfectly enchanting Sometimes in case of Freckles it will first start out those that have lain hidden and seen but seldom Pursue the Salve and all will soon disappear The reason for this wonderful change in a lady's face is, that it excites into natural and healthy activity the Insensible Perspiration, while it renovates and renews the surface, which leaves the skin as lively and delicate a condition as the most fastidious could desire It is put up in fine jars and beautifully scented on purpose for the toilet.

BURNS.

Life can always be saved if the vitals are not injured I have so many testimonials for the cure of this complaint that I could fill a book I suppose there is not a family in the U States, that would consent to be without this Salve a single day, if they knew its balm in healing burns alone It extracts the pain and leaves the place without a scar

QUINSY SORE THROAT, INFLUENZA, BRONCHITIS

There is not an internal remedy in existence, that will cure those disorders as quick as this Salve. It opens the pores on the neck and draws off all the inflammation and impure juices, and a few days sees the patient well. It is sovereign in these cases.

PILES.

The Salve acts upon the Piles as upon Sore Eyes — There is an inflammation, which must be drawn from the parts. The Salve does this

HERNIA OR RUPTURE

This Salve has cured some very bad cases of rupture, and although it might not all, yet it would be wise to try it. It is a peculiar complaint, but it may be helped some, if not cured entirely. I have not the shadow of doubt that it would cure thousands if a trial was made, who believe no medicine of the least benefit. 2s. worth would satisfy any one, whether it would do good or not.

WORMS

If parents knew how fatal most medicines were to children, taken inwardly, they would be slow to resort to them. Especially 'mercurial lozenges,' called 'medicated lozenges,' 'vermifuges,' pills, &c. Even were it possible to say positively that worms were present it is not safe. The truth is, no one can tell, invariably when worms are present. Of course the remedy is not applicable to the complaint. Now let me say to parents, that this Salve will always tell if a child has worms. Let it be rubbed on the neck and chest, to keep them from going up, and then down on the bowels, and they will soon leave. It will DRIVE every vestige of them away. This is a simple and SAFE cure. No injury can come of it any way. But should it be cholic, inflammation of the bowels, or gripe of the intestines, it will effectually cure them as the worms

There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms. It would be cruel, nay WICKED, to give internal doubtful medicines, so long as a harmless, certain, and effectual external one could be had

CHOLIC, PAIN, OR INFLAMMATION OF THE BOWELS.

Let the Salve be rubbed in and heated with the fire in hot flat irons, and all pains and difficulty will soon cease

SWELLINGS

of the Joints, or weakness, or any affection of the bone, nothing does good as this Salve.

POISONS

I never knew any thing do good as this Salve It causes the poison to discharge immediately, and leaves not the slightest cause of alarm. Poison by nails, bites of animals, or burns, it removes when nothing else will.

TOILET

I have it done up in fine order for the dressing case Although I have said little about it as a hair restorative, yet I will stake it against the WORLD! They may bring their Oils far and near, and mine will restore the hair two cases to their one. These are no idle words, for I am ready to back it with any reasonable amount

OLD SORES, MORTIFICATIONS, ULCERS, ETC

There is no effectual way of curing these but by drawing off the putrid matter To merely dry it up would only endanger one's health more. That some Sores are an outlet to the impurities of the system, is the only reason, because they cannot pass off through the natural channels of the Insensible Perspiration If such Sores are healed up, the impurities must have some other outlet, or it will endanger life This is the reason why it is impossible to use the common Salve of the day in such cases For they have no power to open other avenues, to let off this morbid matter, and the consequences are always fatal This Salve will always provide for such emergencies There need be no fear It is perfect

BROKEN BREAST

Persons need never have a Broken Breast. The Salve will ALWAYS prevent it, if used in season

LIVER COMPLAINT

Persons with this disease frequently have eruptions of the hands face and other parts, and never once think that it arises from the liver. Their utter inability to remove these eruptions, proves the misapprehension of the disorder Such must use it first on the feet, then wear it on the chest, and the difficulty will soon go away

ILLIAC PASSION OR GRIPING OF THE INTESTINES

This disease caused the death of the late accomplished Hugh S Legare, Attorney General, and acting Secretary of State of the United States It is the stopping up of the smaller intestines, and sometimes the twisting of them It is brought on by a neglect of the daily evacuations, or from incarcerated Hernia The pains are awful and unless help comes speedily, the sufferer soon dies

The All Healing Ointment would have saved the life of Mr Legare and all others under similar circumstances

All those gripings inflammations and disorders of the bowels will be relieved if not effectually cured

CORNS

If the Salve is used according to directions, people need never be troubled with Corns especially cut out by some traveling Mountebank who knows he is doing more mischief than he can possibly repair A little of this Ointment put on now and then will always keep them low

And there are few complaints that it will not benefit It is a FAMILY Salve of untold value As long as the sky rolls over our heads and our grass grows upon the earth it will be sought after, used and valued As there is no mercurial substance in it, but composed entirely of vegetables, it gives no ground for apprehension

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM

IF there be a pleasure on earth which superior beings cannot enjoy and one which they might almost envy men the possession of it is the power of relieving pain How consoling, then, is the consciousness of having been the instrument of rescuing thousands from misery to those who possess it What an amount of suffering has been relieved, and what a still greater amount of suffering can be prevented, by the use of Sands's Sarsaparilla! The unfortunate victim of hereditary disease, with swollen glands contracted sinews and bones half carious, has been restored to health and vigor The scrofulous patient covered with ulcers, loathsome to himself and to his attendants has been made whole Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation

The following interesting case must commend itself to the careful attention of all similarly afflicted.

Sands's Celebrated Sarsaparilla!

I speak experimentally when I say that this medicine is far more effectual in the cure of chronic or acute rheumatism than any other preparation I have ever used Having endured extreme suffering at times within the last five years from repeated attacks of inflammatory or acute Rheumatism, I have recently used Sands's Sarsaparilla with the happiest success, my health is now better than it has been for many months past, my appetite is good, and my strength is rapidly returning I attribute this healthful change entirely to the use of this potent medicine Feeling a deep sympathy with those who are afflicted with this most tormenting and painful complaint I cannot refrain from earnestly recommending to such the use of this valuable specific Having the most entire confidence in the medicine and skill of Dr Sands, I was induced thereby to try the efficacy of their Sarsaparilla and I take pleasure in adding my testimony to that of many others commendatory of the invaluable properties unknown to and unsolicited by the Messrs Sands CHARLES DYER Jr,
Druggist and Apothecary, 40 & 42 Westminster st
Feb 15, 1845 Providence, R I,

NANTUCKET Mass 8th, mo 31, 1844

A B & D, SANDS Esteemed Friends Although an entire stranger to you, I do not feel at liberty any longer to defer the acknowledgment of a great indebtedness to you for your invaluable Sarsaparilla which has been the means, under a kind Providence, of my inexpressible relief. I am also urged to this acknowledgment by reflecting, that by my humble testimony hundreds of sufferers, miserable as I have been, may be induced to try this remedy, and experience a cure as speedy and happy as mine For ten years I have been suffering under a Scrofulous affection in the Bones in my head, and during a great part of this time, my pain and sufferings were so severe, that but for a reliance on the Great Disposer of events, I should have desired, and most preferred death itself At different periods during my sickness, twenty pieces of bone have been taken from my head in various ways, besides all my upper teeth, and the entire upper jaw, rendering the mastication of food quite impossible After expending about six hundred dollars for medical aid I had recourse to your justly celebrated Sarsaparilla, and within the last three months the use of twelve bottles has, with the most beneficial operation, completely arrested the disease, the healing process is going forward, and I am rapidly approaching to a perfect cure Being extremely anxious that others laboring under similar complaints may have the advantage of my experience I shall be most happy any time to communicate to them or to you such further and more minute particulars as may be desired Please accept assurance of my great obligation and regard. BENJ M HUSSEY,

NANTUCKET 9th Mo 3d, 1844

A B & D SANDS — Respected Friends Benjamin M Hussey is a person of perfect respectability, his statement in relation to the wonderful effects of your Sarsaparilla upon him, may be implicitly relied upon His case here is considered a very extraordinary one, and the cure altogether is such as to entitle the Sarsaparilla to be ranked as a great blessing to the human family, and we consider it as such.

Yours with true regard,
WILLIAM MITCHELL.
Cashier of the Pacific Bank, Nantucket.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained gratis

Prepared and sold, wholesale and retail, by
A B & D SANDS, Druggists, 79 Fulton st N. Y
Sold also by Druggists generally throughout the U States Price $1 per bottle: six bottles for $5.

☞The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult cases of diseases to which the human frame is subject, therefore ask for Sands' Sarsaparilla, and take no other.

TRIUMPHANT SUCCESS OF

BUCHAN'S HUNGARIAN BALSAM, THE GREAT ENGLISH REMEDY FOR CONSUMPTION!

THE great and only REMEDY for Colds Coughs, Asthma, and CONSUMPTION is the *HUNGARIAN BALSAM OF LIFE* discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor

The extraordinary success of this Medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as CONFIRMED AND INCURABLE. The Hungarian Balsam has cured and will cure, the *most desperate cases* It is no quack nostrum, but a standard English Medicine, of known and established efficacy

INCONTESTIBLE PROOFS.

Of the efficacy of this Balsam in the worst forms of Consumption

From Dr Storer of Saco, Me

DR BRADLEE Dear Sir: The Hungarian Balsam is beyond all question a most perfect and admirable preparation, for Diseases of the Lungs I have used it in my family, and in my professional practice, for more than two years, with the most uniform and decided success in cases of severe Pulmonary Disease, & I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted

Yours Respectfully,
FREDERICK I, STORER, M. D.
Saco, May 22, 1845

Valuable evidence from David Bugbee Esq Bangor

BANGOR, Sept 18 1844

DR BRADLEE—Dear Sir At your request I send you a report of my success as General Agent for the Hungarian Balsam I have now had the Agency of that excellent medicine about two years and have sold in that period, nearly twelve gross, or 1728 bottles. Much of this has been used in the vicinity of Bangor but many dozens have been sent several hundred miles to Houlton and the Provinces, to Machias Eastport &c The success of this Balsam in the relief and cure of Pulmonary diseases is absolutely astonishing Hundreds, I am sure, have been saved from a premature grave by this medicine—invalids supposed to be past all hope have been restored to comparative health and the last moments of the dying have been made comfortable by its use In cases of children afflicted with severe and obstinate coughs it has been employed with great success several instances of this have come under my personal knowledge Indeed this is a grand medicine Its reputation is established here and the sales are constantly increasing

Yours truly
DAVID BUGBEE

Another Life Saved.

BATH Me Feb 24 1845

DR BRADLEE Dear Sir I take much pleasure in giving you a statement of the beneficial effects of Buchan's Hungarian Balsam on my daughter, who has been for a number of years afflicted with a bad cough pain in the side raising of blood and all those pains and troubles which attend that insidious disease, Consumption I employed a physician who attended her a long time at great expense, and then advised the consultation of a celebrated physician in a neighboring town at still greater expense and after a number of visits from the advising physician, and the continuance for some time of the family physician he declared he could do no more for her He had done all that he could, and I could see no benefit from it I then employed a Botanic Physician for some time who seemed to do her some good but did not reach the root of the disease I was then advised by a friend to try BUCHAN'S HUNGARIAN BALSAM I have used six bottles with a most astonishing effect It has restored her strength cured her entirely of her cough and pain in the side, and she is now attending to her accustomed duties This may seem wonderful but it is no more strange than true, and I would advise all who have symptoms of consumption to take this medicine in season and not wait till all hope is past although this case has terminated so fortunately In this case I paid between one and two hundred dollars for physicians and medicine without any satisfactory benefit while six dollars worth of the HUNGARIAN BALSAM has removed the disease renewed the strength and brought on a healthy state of the system Try it for yourselves and you will find the one half has not been told You can use this letter as you think best and as will do most good—and wishing that your medicine may benefit many as it has my daughter

I remain gratefully yours, JNO YOUNG

P S I would say further that about five years ago my daughter commenced raising blood which continued at times for three years and sometimes very bad, about two years when she commenced taking this Balsam The first bottle stopped the raising of blood entirely and she has never been troubled with it since

From J. E Ladd Apothecary, Augusta

AUGUSTA Me. May 27, 1845

DR BRADLEE Dear Sir Having sold the Hungarian Balsam of Life for two years past and having personally observed its beneficial effects in many cases of lung complaints and some of them very severe, I do not hesitate to recommend it as an excellent preparation for those diseases for which it is recommended

Very respectfully, &c J E LADD

GREAT CURE AT AUGUSTA, ME

AUGUSTA, May 27, 1845

DR BRADLEE Dear Sir: I can truly say that the Hungarian Balsam has been of the most infinite service to me I have been cured of an affection of the lungs which was thought to be INCURABLE by all my friends, by the use of a few bottles One of my children was also restored to health after being pronounced beyond the reach of medical aid by the physicians and it is now my constant resort in all difficulties of the throat and lungs I have recommended this Balsam to a great many persons and shall continue to do so, as I believe it to be the best thing in the world for diseases of the lungs

Yours truly FRANCIS J WEEKS

From Edward Mason, Druggist, Portland, Me

PORTLAND, Me April 17, 1845

DR BRADLEE—Dear Sir The Hungarian Balsam gives good satisfaction in this city and vicinity, and I have no doubt from the reports I hear of its salutary effects upon invalids that it is an excellent preparation for diseases of the lungs

EDWARD MASON, Apothecary 59 Middle street

HEAR THE PRESS.

From the Christian Observer, March 2 1845

The public may place the utmost reliance upon the statements respecting the Hungarian Balsam, by Dr Bradlee the American Agent, who is an old and highly respectable citizen of Boston, a member of a christian church, and a man who would not for any consideration give his influence, in favor of any sort of deception, or imposture

From the Thomsonian

If any thing could reconcile us to a departure from Thomsonian principles in the treatment of disease, it would be the extraordinary reputation of a medicine like the Hungarian Balsam, which we believe both from careful analysis and the statement of the inventor, to be a purely vegetable compound The effect of this medicine in cases of Consumption, is sometimes truly astonishing.

☞Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping Cough, and Croup

☞Sold in large bottles at $1 per bottle, with full directions for the restoration of Health

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the Agents, gratuitously

DR. SAM'L & JOHN THOMPSON'S DANDELION SYRUP.
FOR THE CURE OF DROPSY AND STRANGUARY
THIS medicine is a powerful hydrogogue diuretic diaphoretic, and moderately stimulant It has a direct action upon the Liver and Kidneys exciting them when languid to action In chronic inflammation of the Liver and Spleen, in cases of deficient biliary secretions, and in all dropsical affections of the abdominal viscera, it is an invaluable medicine
It has been proved to be a superior medicine for the cure of either of the above complaints by many years of practical and personal experience of Dr Samuel & John Thompson and other eminent physicians, and can be depended upon when all other means fail

DENTAL SURGERY.
DR. C A JORDAN Surgeon Dentist still offers his professional services to the Ladies and Gentlemen of Bangor and vicinity and holds himself in readiness to perform operations in a satisfactory manner, in every branch of the Dental profession
FILLING.
Dr Jordan now makes use of nothing but pure gold for filling carious teeth
Extracting with forceps of the latest and most approved kind, avoiding most of the pain heretofore attending the operation
TEETH cleansed and polished in a beautiful manner without pain or injury to the enamel
Inserting Teeth on pivot with such neatness that they cannot be detected with the strictest scrutiny and which will answer all the purposes for which the natural teeth are employed
PLATE WORK.
Dr J would especially call the attention of the public to his mode of setting teeth on gold plate — Persons who have lost a part, or all of their natural teeth, can be supplied with artificial ones equally neat and beautiful Dr J inserts entire sets by atmospheric pressure which adhere firmly without the aid of a single clasp or spring Charge moderate and all operations warranted

Reduction of the Tariff.

The administration organ, the Washington Union is out again with the motto extracted from Mr. Walker's letter, "The tariff—it must be reduced to the revenue standard," upon which it preached a short discourse a few weeks since It now springs out with an exultant shout that "Messrs Bancroft and Walker have just struck a blow—one for the "*revenue limits*," and the other for the "*revenue standard*, —which is calculated to command the attention of the nation It then goes on to reiterate its former complaint against the tariff and introduces the reports of the late debates in the British Parliament touching British Free Trade theories, as reasons for a change in our tariff policy The letter of Mr Walker, however, was written previous to the report of the debate and of course so far as his determination is concerned was decided upon, independent of the new light

A strong and artful attempt will be made at the next session of Congress to strike down at one blow the entire protective policy in the tariff It would only be carrying political jugglery to the highest sublimity to have the blow intended to be the death of Northern industry, struck by James Buchanan and for George Bancroft to stand by and 'help' We shall see by and by who is to be humbugged by this revenue idea, by means of which the administration has resolved to play into the hands of the South

City Affairs.

IN COMMON COUNCIL, *July 7, 1845*

An Ordinance relating to the leasing of the rentable city property Passed to be ordained

Ordered That the committee of the Fire Department be authorized to purchase for the use of the city six hundred feet of leading hose and that the Mayor be authorized to draw his order for the same from the contingent fund Passed

Ordered, That the Treasurer and Overseers of the Poor be authorized to lease to Horatio Hill a portion of the City Farm, of such extent and upon such terms as they may deem most for the interest of the public Passed

Ordered That the Mayor be directed to ascertain the title of the city to the various portions of real estate claimed as the property of the city and returned in the annual schedule of city property and to see that all the title deeds are duly recorded in the registry of deeds of the county and of the city

Petition of Franklin Adams et als for side walk on Washington street Referred to committee on streets

Petition of Geo Stetson and Isaac Stetson for leave to occupy six and a half feet of land between Exchange street and the stream, the same being claimed by the public as a street, and by the petitioners as private property Referred to the Mayor in concurrence

Report of Committee on public schools on petition of S B Daggett et als for school house Referred to the next city council

Report of the same on petition of Jonathan R F nson for school house on Levant road—Accepted

Report of committee on city property on petition of H Hill Accepted

Adjourned to the first Monday in August next

Fire.

The new dwelling house partially finished, belonging to Mr Ephraim S Blake was consumed by fire yesterday noon The fire was probably communicated through the carelessness of some small boys at play about the premises The loss is estimated at two hundred dollars As Mr B is an industrious, honest man who has had some struggles with fortune, it is hoped that our citizens will generally contribute of their means to give him a start again We were happy to notice a paper for his benefit, nobly headed by his old associates Engine company No 4 to the touch of thirty dollars

Court Courier.

Supreme Judicial Court

The following law cases were disposed of by the Court in addition to those published in our yesterday's paper—viz

George A Longfellow vs William Mann—Exceptions discharged, judgment on default

Moses Woodward vs Henry W Herbert et al—Defts defaulted

Joseph Shaw vs same—Defts defaulted

Wm Hasty vs Alexander Cooper—Verdict for deft set aside and new trial granted

Nehemiah Kittredge vs P B Tay—One quarter costs allowed

Inhabitants of Orrington vs James Stubbs—Deft defaulted

Hampden vs Brewer—Judgment for Plffs

Amasa T Stevens vs Almira Stevens—Divorce decreed

Splendid Exhibition.

The magnificent Dioramas of the Battle of Bunker Hill, the Storm and the Fairy Land are on Exhibition in this city for a few days All who witness the movements of these splendid feats of the mechanism are delighted and every body acknowledges that the exhibition is one of the highest interest It is to be open on Saturday afternoon for the accommodation of the little folks

Reform Backwards.

By the new Mail arrangement we do not receive our New York evening papers so soon by sixteen hours as by the old arrangement and we are cut off from all the benefits of the second editions of the Boston papers. If the morning mail from New York into Boston could be set ahead an hour or the mail for the East delayed an hour or two we should be great gainers

☞ The Portland Advertiser states that on Thursday last Mrs Cox, wife of Mr Warren Cox of that city, was instantly killed by lightning. She left a large family of children A building owned by Mr Nathan Woodbury and the dwelling of Judge Emery were much shattered during the same storm.

☞ A pair of neat Gipsy hats with beautiful young ladies under them came into our office yesterday bearing two fragrant boquets for the adornment of our table. We return our profound thanks for their favors.

☞ The receipts at the Ladies Levee on the evening of the Fourth, (which we did not ascertain in season for yesterday morning's paper) were $191,43.

Important from Texas—Treaty with Mexico Rejected—Annexation Adopted.

There was great rejoicings at Washington, at the last advices from that city, in consequence of intelligence received that the Texan Congress had accepted the proposition of annexation made by this government We learn from the Washington Union that the news was brought to Washington by the U S Steam Frigate Princeton, Captain Stockton, which arrived at Annapolis on Thursday, in a passage of nine days from Galveston The Union says

"The news brought by the Princeton is of the most interesting character Both houses of the Texan Congress have unanimously consented to the terms of the joint resolution of the United States The Senate had rejected the treaty with Mexico by a unanimous vote Capt. Waggaman had arrived at Washington, Texas, to select posts to be occupied by the U S troops, and to provide for their subsistence A resolution was introduced into both houses of Congress, requiring the executive to surrender all posts, navy yards, barracks, &c, to the proper authorities of the United States The joint resolutions were introduced into both houses of Congress on the same day, and were almost identical in their tenor. The resolutions passed the Senate on the 18th of June, and were sent to the House, the House laid them on the table and passed their own resolutions unanimously, and sent them to the Senate on the next day—In the mean time, considerable jealously arose as to which branch should claim the honor of the paternity of the resolutions and it was finally settled that the House should take up the resolutions of the Senate, and amend them in the third section

The House then passed them in their present form, and sent them back to the Senate which body concurred in the amendment The President is pledged to give full and immediate effect to the will of Congress, so far as depends upon himself

This important intelligence has just reached the President of the United States, (this evening, half past 8) We must confine ourselves principally to the contents of the Galveston 'News Extra, of the 23d June

Here follows the Message of President Jones and a copy of the joint Resolutions which passed unanimously, but for which we have no room to day

In the Texan Senate—Mr Kaufman, as chairman of the committee on foreign relations, reported the '*joint resolution giving the consent of the existing government to the annexation of Texas to the United States,* which joint resolution was passed through its third reading on the next day, the 19th—the rule being suspended on motion of Colonel H L Kinney, by a unanimous vote of the Senate

On the 19th in the Senate Mr Green introduced a joint resolution relative to the introduction of U S troops into Texas, read a third time

From Mexico.

The N O Picayune thus speaks of the temper of the President's message to the Mexican Congress

We have before us the address delivered by President Herrera on the 30th ult, upon the closing of the session of Congress It is not a document of sufficient interest to require translation The President congratulates the Chambers upon the full restoration of order throughout the Republic, and the ascendancy of legal functionaries over arbitrary will

The foreign relations of the country he states to be on the best possible footing, save only with the United States

The passage of the Annexation Resolutions had sundered these relations, and the Ministers of the two countries had been mutually withdrawn, and he declares that it is not easy to perceive what will be the termination of these differences which neither the Government nor the Republic of Mexico has promoted either directly or indirectly

The President says he sought to avoid a rupture with the United States while resisting the annexation of Texas He relies upon the justice of the cause of Mexico, and declares that this justice will compensate for any want of numerical strength

Another Third of Quebec destroyed by Fire.

On the 28th of June, just one month after the great fire the city has again been devastated The fire took in St John Suburbs and spread with great rapidity until thirteen hundred dwellings were destroyed and at least six thousand people rendered houseless Thirty streets laid in ruins Only a few lives were lost not more than ten or twelve in all The scene of the fire was quite appalling The fire destroyed nearly the whole of St John and part of St Lewis Suburbs, from St John's Gate and the N W angle of the walls along the brow of *cottau Ste Genevieve* nearly to the Tower No 4 and up to a couple of streets below St Lewis Road

Sad Accident.

The Boston Journal of Monday says that a vehicle, in which was Mr Davenport, of the firm of Devenport & Bridges, of Cambridge port, his wife and daughter, and Mr Davis of Gardiner, Me, while proceeding through Cedar street in Roxbury, on Saturday was overturned, owing to the horses being frightened, and Mr Davis was seriously injured, his arm being badly fractured in two places, besides receiving other hurts The little girl was also much hurt

☞ We are indebted to Albert Emerson, Esq for the Boston papers of Monday, and to Jerome & Co for a fine bundle of Boston papers, and also to Gilman's Express for the Boston Mail by the Charter Oak, which arrived about eleven o clock

☞ The dwelling house of Mr Thomas Snow was burnt in Hermon on Sunday Most of the furniture was saved The property of a young woman to the amount of sixty or seventy dollars was consumed No insurance

☞ Mr G H WYATT, an old favorite from Boston, with a select company—among whom are those universal favorites Mr J and Miss C Fox—will commence giving dramatic entertainments at the City Hall to night

Visit to the Mountains.

To the Editor of the Whig and Courier

A visit to Mt Lafayette and Franconia notch May, 20th, 1845, induced me to write the following description for the entertainment of your readers

The house at the notch is called the Lafayette house, and is kept by Knapp, who does the needful to make visitors quite at home and comfortable It is situated in one of the most interesting spots in new England There are a number of small ponds within a half of a mile of it to amuse the angler and to satisfy the lovers of trout and pickerell

About half a mile South of the house is the view of the old man in the mountains and one of the most if not greatest natural curiosities of this or any other country, combining as it does all the necessary features to form a perfect profile view of a human face the whole projecting from the top of the mountain looking eastward toward the rising sun and elevated some 3000 feet

About five miles below is a house kept by Knight who does the right thing to make all feel at home Near here are a so curiosities to amuse the lovers of nature, called the Room and pool and high and lofty mountains well worth visiting

The object of this communication is to call the attention of the public to this part of the white hills and to give in my own way a description of the view from the top of Lafayette The path leading to Lafayette intersects the spost road where the view of the old man in the mountain is obtained

We were two and a half hours in ascending the mountain (which is between three and three and half miles) but people of slender constitution or unused to the woods should be about four hours, and it will be found a very pleasant task, as the whole course presents objects of interest at every angle (which are many) as you proceed up the steep, but easy ascension, owing to the numerous rocks and trees which encompass the path which one can substitute for a cane I will not trouble the reader with the rugged path to the beautiful view obtained, but suffice it to say, that I dreaded the ascension before I went up much more than I do now, and feel more anxious to go up again than I did before, and I think no one who tries the experiment will ever regret it

At half past ten I was standing upon the summit of Mt Lafayette altho the Patriot, whose name this mountain bears, has passed away from our sight, and been immortalised and to go no more out forever this grand mountain stands to be an eternal monument to bear testimony to the distant nations, and generations down the course of time of the love and gratitude of the American people, towards that Heaven exalted citizen of France, Lafayette, whose character and life are identified with the American revolution and liberty

Pen and ink must fail to give an adequate description of the view from the top of this mountain altho the imagination may be delighted yet when one has had the view, all description seems too feeble to convey to others the grandure and beauty of such a vast country stretched out before us

Around and about this cluster of mountains the Merrimack river takes its rise, and looking Southerly you view the valley of this beautiful river and its bed until it is lost in the distance the water of the river cannot be seen, but the bed of the river is seen for a great distance, partly hid however by its serpentine or zigzag course presenting sections of the river of different lengths to the right and left, and has a yellowish and dim red hue, resembling a distant road The valley is very narrow near where the river takes its rise but gradually widens as it courses its way into the lower country and is hemmed in by high hills and lofty mountains

The tillage land presents a yellowish cast while the grass land and pasturage have the appearance of green velvet, the trees upon either bank of the river and back of the farms at the base of the mountains, present a beautiful but irregular border varying in color from a yellowish green to an invisible green mixed up in a confused but highly pleasing manner as we often see in dame nature The mountains upon either side of the valley furnish beautiful back grounds varying from a mixture of light and dark green to a greyish brown with their accompanying hues to a beautiful blue in the distance as they mingle with the distant moving clouds, which with the sloping farm houses barns and bridges present a view quite enchanting

In an easterly direction are seen a vast pile of mountains and hills rising from the bed of numerous streams and rivers to varying heights from the small hillock to lofty mountains over six thousand feet high I had thought of naming and noting the position of the mountains to be seen from this view, but I at once abandoned the project on arriving at the top of Lafayette and beheld the immense group extending from where I stood as far as the eye could extend, and without a single habitation of man to be seen or a cleared spot except where a slide had cleared off all vegetable matter and left nothing but gravel and rocks to be seen, or where the height of the mountains forbid vegetation growing, but the great majority of the mountains are covered to their very summits with trees of various kinds, although in the distance, all are blended in one, yet as the eye wanders from the near to the distant, the change is perceptable and agreeable There stand the lofty pines towering high toward heaven reeling too and fro at every gust of wind, yet resisting the most furious storm that frequently howl and sweep over this romantic spot Beside these mighty giants of the forest stand the insignificant shrub quiet and undisturbed, while all is agitation around, except perchance by the fury of the storm is hurled to the ground one of the kings of the forest, or the devouring flames sweep over these monuments of nature and lay all in one common dust

The two views alluded to are highly interesting and pleasing, and furnish much for the pencil of the artist and the imagination With a narrow valley cutting assunder a vast pile of mountains extending in an easterly and southwesterly direction, for westerly of the Merrimac are many lofty mountains extending as far as the eye can extend heap upon heap and pile upon pile until they appear in the distance to reach up to and mingle with the skies How grand and sublime the thought when we contemplate that these hills and mountains have been formed by the internal heat of the earth and that they must have been hove up much higher than they now are but when the heat had expended its fury this mighty pile fell back in hurried confusion where it now lies as eternal monuments of the power and goodness of Him who holds all in the hollow of his hand

From north east to nearly south west westerly lies the beautiful and prosperous valley of the Connecticut River and its numerous tributaries pouring in from Vermont on the West, and New Hampshire on the East, presenting a concave by the gradual rise of the country in Vermont to the green mountains, and in New Hampshire to the white hills where I stand This valley teems with an abundance of the products of the soil, and all the comforts of life and an industrious population

The farms and villages near here present a coarse and rugged texture having a lively and cheerful appearance with thousands of smokes beautifully ascending from as many houses and the farms appear broad and expansive As you pass your eye off in the distance the farms and buildings appear smoother and smaller and the smokes more dim Still farther and the farms seem quite narrow, and long, presenting the appearance of belts of various colors but of irregular forms, the buildings seem like random specks often partly hidden by the forest trees which being elevated above the cleared land hide, in some measure the view but give an agreeable contrast, together with the beautiful swells of land of which the whole country is made up and it is quite enchanting to chase with the eye in quick succession, farms, houses, meadows, ponds, hills, and forests, rising and swelling in the distance as it were to meet the descending horizon until they approximate each other to hide from the view beauties to be imagined beyond

Standing upon this eminence, and viewing the triangular features of this part of the country, at a glance fills one with animation and hope beyond description, when we take into consideration that this great valley is filled with thousands of industrious and free people causing every hill and dale to echo with their songs of joy and gladness truly one must say that this is a favored land

As my eyes rested upon this vast valley lying between Mt Lafayette, and the Green Mountains of Vermont swarming with animal life—I was forcibly reminded of the description of the great platteau surrounding the city of Mexico, by Prescott in he Descent of Cortes from the mountains to the city of Montezuma and I could not help contrasting the situation of the people of Mexico at the time spoken of, with the situation of the people in the beautiful valley stretched out before me

In the great valley of Mexico were a vast multitude of people divided into a great many different tribes or nations, constantly waring against each other, with their vast cathedrals stured with hundreds of thousands of human skulls as so many evidences of the number of sacrifices of prisoners, taken in their wild and ruthless wars, and dedicated to their idol god, each tribe or nation having a different god and gods many and a people who have no history connecting them with the rest of the human family, but reveling in superstitious imaginations and savage ferocity

In the valley before me are toiling thousands elevated to the pinnacle of political glory all worshiping the God Jehovah according to the dictates of conscience and rendering to him the sacrifices of broken and contrite hearts, the earth yielding a competency by the free action of a free people urged on by the legitimate rights of man to man and their duty to the only living and true God

In view of these unspeakable blessings I would say to this valley rejoice and be exceeding glad that the son of righteousness has arisen with healing on his wings NATIVE

CIRCULAR.

TO WHOM IT MAY CONCERN

THE MAINE MAMMOTH MUTUAL FIRE INSURANCE COMPANY was incorporated at the session of the Legislature in 1843. The corporators and others held their first meeting in conformity to the Act, at which time the following gentlemen were chosen Directors for the present year, viz—James Dinsmore Cyrus Fletcher and Samuel Philbrick of Skowhegan Sanford Kingsbury of Kingsbury Moses Sherburne of Phillips Anson P Morrill of Mt Vernon, S B Gorham of Danville, James McLellan of Bath, Robert A Cony of Augusta William Farnham of Foxcroft, J S Keith of Oxford Jabez True, Bangor, Isaac Deering of Waterboro, and Solomon Thayer of Lubec The meeting was adjourned in order to prepare By Laws to meet at Skowhegan the 2d of June At said meeting the following By Laws were adopted and voted to have the next annual meeting at Augusta The Directors have also had a meeting and chosen Sandford Kingsbury President Samuel Philbrick Treasurer and James Dinsmore, Secretary and Gen Agent, and the office is located at Skowhegan the present year

BY-LAWS.

Art 1 At each annual meeting the members present may determine when and where the next annual meeting shall be held, and also the number of Directors to be chosen and the Directors shall determine where the Secretary's office shall be kept during their administration

Art 2 A special meeting of the Company may be called by the Directors when the interest of the Company require it nothing, however shall be acted upon but what has been distinctly stated in the notice for the meeting

Art 3 At every meeting of the Company the President if present shall preside, and in his absence the senior Director present shall call to order and preside until a chairman shall be chosen The election of Directors shall be by ballot each member having one vote, and absent members may vote by proxy being authorized by the person represented and filed with the Secretary

Art 4 No person shall act as President Director or Treasurer unless he be a member thereof and no Director shall act on any question in which he shall be interested

Art 5 Policies of Insurance shall be from one to four years Signed by the President and countersigned by the Secretary no greater amount than five thousand dollars or five per cent on the whole amount insured shall be taken on any one insurance nor on separate insurance when the buildings or property are so situated as to render the same equivalent to a single risk

Art 6 Each person or Company shall pay to the Secretary for each Policy as follows for five hundred dollars or less insured fifty cents, for all over 500 one dollar

Art 7 No Policy shall be issued to an Agent or Attorney until his agreement or attorney's power be filed with the Secretary

Art 8 No more than two thirds of the whole value of any building nor more than one half the value of personal property shall be insured in this Company

Art 9 Ten per cent of the deposit notes shall be paid and endorsed thereon at the time of receiving the Policy for four years five per cent for two years and two and one half per cent for one year

Art 10 In cases where no permanent lien can be created on merchandize or other personal property the Directors may require a surety on the deposit note

Art 11 The Secretary shall keep a record of the Director's transactions and open to the inspection of all the members of the Company during office hours and at each annual meeting report the number of Policies and amount at risk

Also the Treasurer shall at each annual meeting report a correct statement of all their funds

Art 12 In case of loss the insured shall within 30 days deliver to the Secretary of the Company as particular a statement of his loss or damage as the nature of the case will admit, stating also whether there was any other insurance on the same property and if so to what amount and make oath or affirmation of the same before a Justice of the Peace and no part of such loss shall be payable until this condition shall have been complied with And if there shall appear any fraud in the claim made for such loss the claimant shall forfeit all benefit under his Policy except what the Directors may see fit to allow

Art 13 Notices of Assessments shall be given by the Treasurer in such manner as the Directors deem expedient thirty days before the time fixed for payment

Art 14 The Company reserve the right of cancelling any Policy whenever a majority of the Directors shall deem there is sufficient cause therefor and in such case the Policy shall be void, at and from the time when written notice therefor signed by the Secretary shall be given to the assured, and the assured shall be entitled to receive back the amount if any, due him on equitable principles in the same manner as if the Policy had been made for that length of time Any member may surrender his Policy to the Directors after one year and take up his note by paying all arrearages Also when the insured shall materially alter or enlarge a building or appropriate it to other purposes than those mentioned in the Policy so as to increase the risk, the same shall become void Provided however, if he shall within 30 days from such alteration enlargement or change of appropriation give notice thereof to the Secretary the Policy may be renewed by the Directors or continued on such terms as they may deem equitable

Art 15 The alienation of personal property and double insurance on the same shall have the same effect on the Policy and be subject to the same provisions and conditions as are contained in the sixth and eleventh sections of the Act of Incorporation in relation to real property

Art 16th In case of loss or damage by fire the Directors may authorize the Treasurer to borrow money to an amount not exceeding one eighth of the premium notes to be applied to pay such loss or damage, and the Treasurer may give a note for the same and such note shall be binding upon the company

ABSTRACT OF DIRECTIONS TO AGENTS

As the Company is for Mutual Insurance, it is desirable that the greatest care should be taken in estimating the value of the property to be insured, and also in estimating the degree of exposure, or risk, under which the property may be situated—To enable the Directors to judge with a proper degree of accuracy as to the value, a minute description of the property is in all cases required in addition to the estimate of its value The exposure of the property must be described as accurately as possible, and when the amount insured is large and the exposure great, or any building within ten rods, a plan of the premises should be furnished at the expense of the applicant, and sent with or on the application The buildings should be numbered, also state who owns them for what purpose occupied and the distance they are from each other with a north direction

The description and graduation of risks is furnished below, but when there is the least doubt as to the amount of premium to be taken the Agent will have the note signed and left blank to be filled, (after the Directors determine the amount of premium) by the Secretary or any other person the applicant is pleased to authorize to do it. The Directors have no interest to serve, but to do justice as near as possible to all concerned

As members will be anxious to know what alterations would increase the risk so as to make their Policy void, named in Art 14th of the By Laws they are informed that any repairs finishing additional buildings, such as a Porch, Wood-house, erecting Chimneys, Plastering, putting in and using Stoves, when the funnel is safely secured in a Chimney, setting a boiler for the use of the family and changing tenants will not be considered as increasing the risk, and it is unnecessary to report such cases On the other hand, when another family moves in or any additional business is carried on, not mentioned in the Policy, or if the buildings added shall approach others so as to make it more risky, the members must report agreeably to that section of the By Laws It must however be distinctly understood if the buildings are destroyed by fire by means of the shavings made in repairing or building, they will lose their insurance.

When property is alienated by sale or otherwise, the Policy must be immediately returned to the Secretary to be cancelled, unless it be transferred to the purchaser in which case the transfer must be made on the back of the Policy and all assessments paid up to that time, a new note given by the Transferee, and the new note and Policy sent to the Directors for their ratification, or lodged with an authorized Agent to be sent for the purpose aforesaid, within thirty days from the sale

When any Agent or member makes any communication to the Secretary or Directors relating to insurance he should state the number of the Policy The agents name should always appear on the Application, also the full names of Partners who use a Company name also the name of the partner who signs the Company name

When real property is so situated that the consent of the owners cannot be obtained or personal property where no permanent lien can be had, a good additional name is required on the deposit note as surety

When an agent makes application for insurance he must consider himself the agent of the applicant. The applicant is bound that the application he signs contains a true representation of the property to be insured, and of his interest therein The Directors do not consider the Company liable for any act or representation of an agent, except when specially authorized by the Board to perform some particular act or service

When property is re insured the old Policy should be sent in with the application if it has not expired in time—if it has, the number of it should be noted on the back of the application that a proper disposition may be made of the old premium note

Insurance is not made for a less sum than One Hundred dollars unless the applicant has already an insurance in the Company to which he wishes an addition made. Only two thirds of the actual value of buildings and only one half the value of personal property is to be insured in this company Care must be taken to avoid double insurance a specified sum should be taken on each one of several detached buildings instead of one gross sum on them all Hay in detached barns should have an insurance of a specified sum on that in each particular barn The barns being numbered for description and reference also all other detached buildings having personal property therein to be insured must be described as aforesaid And in all cases the amount insured must be divided into the several items as far as may be such as Furniture Merchandize Hay Grain Farming Tools Mechanics Tools Machinery Stock consisting of raw material or finished work so that in case of a partial loss the Company may be required to pay no more than they intended to insure on the particular item lost

The Directors have agreed upon the following classification and graduation of risks and per cent to form the premium notes—10 per cent of said notes the premium for 4 years per ct for 2 years and 2 ½ for 1, classed as follows—

First Class Detached Dwelling Houses 2 per ct 2d C Stores and Store Houses 4 per ct, 3d C Taverns Grocery and Provision Stores Tailor and Shoe makers' Shops Churches Academies and School Houses 5 per ct 4th C Printers, Books and Stationery Watch makers Tin and Sheet Iron Shops 7 per ct 5th C Fulling Mills 8 per ct 6th C Grist Mills Saw Mill [illegible] Carpenters [illegible] Blacksmith Shops [illegible] Carding Machines 10 to 12 per ct [illegible] Painters Chair Makers [illegible] Stone Ware Manufactories Bakers [illegible] Tanneries without heaters Oil Mills [illegible] 17 per ct [illegible] Starch Factories 20 per ct [illegible] with heaters per ct

[illegible] detached [illegible] per ct [illegible] 3 per ct [illegible] 1 per ct [illegible] the buildings [illegible] other [illegible] If per ct [illegible] connected [illegible] otherwise [illegible] risks

The above By Laws and Directions to Agents [illegible] which the Company [illegible] to be governed [illegible] refer to the Act of Incorporation All who wish to become members will please report by directing the property *post paid* to either of the Directors any authorized Agent or the Subscriber, and they will be attended to in due season
